**“Back to Basics”**

We are pleased to invite you to the 2020 JPH/BAHF technical officiating seminar which brings us “Back to Basics” as we welcome top officials from around the USA and Pan America to share their experiences with our participants.

The aim of this year’s seminar is to discuss some key responsibilities of the Technical Officer and Judge. The course will discuss topics that are relatable for new technical officials but present them in a way that seasoned officials will gain a greater understanding of how these responsibilities relate to current international events.
